

Digital Retinal Imaging

We now offer **Digital Retinal Imaging** as part of your comprehensive eye exam. This advanced technology offers an instant view of the retina, blood vessels, and layers of the retina not always seen with dilation. Retinal evaluation is important for the detection of many eye diseases such as macular degeneration, retinal tears, tumors, etc.... It also helps in the diagnosis and management of systemic disease such as diabetes and hypertension among many others. The fee for Digital Retinal Imaging is \$29 and is not covered by vision insurance plans.

Please initial by your choice below:

_____ Yes, I would like digital imaging

_____ No, I would not like digital imaging
